

Sare® - Heavy Duty Connectors

As your technical partner, we support our customers in advice on technical solutions and the design of tailor-made products. By participating customer's needs. We think from customers' perspective and do our utmost to solve their problems with our professional knowledge and skills.

- InKonn(Suzhou) Electric Technology Co., Ltd.

Outdoor Series B06
- IP67
- Single locking
- For rough environments

Standard Series B10
- IP67
- Central locking
- total suitability

STG Series B16
- IP67
- Double locking
- For Theater & Light Stage application

EMC Series B24
- IP67
- Double locking
- For higher EMC requirements

Profile

InKonn is powered by a team of people who are experienced and constantly active in the field of Industrial Connector. Our team members have strong backgrounds in both manufacturing and development in Industrial Connector.

- Sectors in which we operate

- Automation
- Railway industry
- Wind power industry
- Machinery industry

Mission

We are dedicated to provide our customers with the best solutions. Our close partnership with global industry leading companies enhance our service offering.

As your technical partner, we support you in advice on technical solutions and the design of tailor-made products by participating customer's needs. We think from customers' perspective and do our utmost to solve problems with our professional knowledge and skills.

Please note the following safety information:

- Never plug or unplug connectors under load or during operation.
- We can only guarantee the technical and electro-technical characteristics promised in this catalogue if all the components were supplied by InKonn.

The following standards apply in the vicinity of heavy-duty connectors:

- DIN EN 60664-1 or IEC 60664-1: Insulation coordination for equipment within low-voltage systems; principles, requirements and tests (replaces DIN VDE 0110-1)
- DIN EN 61984 or IEC 61984: Plug-in connectors-safety requirements and tests
- DIN EN 175301-801: Detail Specification: High-density rectangular plug-in connectors, round removable crimp contacts; (replaces DIN 43652)
- DIN EN 60352 or IEC 60352: Solderless connections
- DIN EN 60529 or IEC 60529: Classes of protection provided by enclosures (IP code)
- DIN VDE 0870: Electromagnetic influence
- DIN EN 60999-1: Connecting devices, safety requirements for screw terminal connections and screwless terminal connections and screwless terminal connections for electrical copper conductors
- DIN 40050-9: Road vehicles; classes of protection (IP code)
- UL 1977: Component connectors for use in data, signal, control and power applications

Quality management

InKonn has been awarded with ISO 14001:2015 & 9001 : 2015 certificate, it means that the company will implement a quality management system to ensure the high-quality and reliability of its products. That way, the company will have long-term, responsible and sustainable development.

We aim to satisfy the requirements of our customers and we are willing to accept all kinds of challenges.
